

幼兒教育高級文憑課程

Full-time Mode Autumn 2021 Intake

The Early Childhood and Elementary Education Division, School of Continuing Education

The School of Continuing Education (SCE) has a vision for the development of professional training courses for local practitioners in basic education. The Early Childhood and Elementary Education Division (ECEED) is the academic arm of the School to foster the continuing professional development of quality teacher education programmes. The School was the first higher education institute to offer early childhood education programme at the degree level and was commissioned by the government to offer the Bachelor of Education (Honours) Programme to practicing primary teachers in 1994. In view of the expanding need for quality training services in early childhood education, the ECEED made a firm commitment to promote the professionalism of early childhood education practitioners.

The ECEED offers a range of academic programmes on a full-time or part-time basis to provide pre-service and in-service training in basic education studies with qualifications awarded from certificate to postgraduate levels. All programmes are offered with a core emphasis on the advancement of academic qualifications as well as teaching skills for local early childhood and elementary education practitioners. With the continuous development of basic education programmes and the increasing number of government-commissioned courses operated in recent years, the ECEED has further affirmed its leading role and expertise in the provision and enhancement of early childhood and elementary education training in the community.
