I declare that this submission represents my own work, and that it has not been previously included in any assignment or academic work submitted to the University or to any other institution for a degree, diploma or any other qualification. In abiding by the University's procedures governing student academic integrity, I have approached the task with honesty in citing published and non-printed sources. Both direct citations and paraphrases are properly acknowledged within the main text. Full details of the cited sources are provided in the end-text list of references. These sources of reference include but are not limited to book chapters, articles in edited books, journals and newspapers, as well as websites on the internet. I also understand that the instructor, or other relevant University staff, might conduct electronic or non-electronic checks for unoriginal materials on this assignment. I do not object to this assignment being subjected to these checks. I can provide evidence to defend myself against any academic integrity violation charge as a result of this submission. I am also fully aware of and willing to bear the consequences of being proved to have committed plagiarism with/without copyright infringement.

A sample of the Turnitin originality report is shown below.

The screenshot displays a Turnitin originality report for a document titled "Memory@HKUL: a Web 2.0 Training Program". The report shows a similarity score of 4% (SIMILAR) out of 8 possible matches. The document content includes an introduction and a literature review section. The match overview table on the right lists the following matches:

Rank	Source	Similarity
1	Campus-Wide Publication	1%
2	Submitted to Pennsylvania... Student paper	<1%
3	www.vala.org.au Internet source	<1%
4	Library Review, Volume... Publication	<1%

6	Submitted to Ohio Univ... Student paper	<1%
7	tametheweb.com Internet source	<1%
8	www.ala.org Internet source	<1%

The result of the text matching mechanism would be generated and shown in the originality report. In the report, you can view the percentage of matching text found in the submitted work. You can revise and re-submit your assignments prior to the due date.

It is important to know that *Turnitin* does not make judgments on whether the submitted work is a plagiarized case. Faculty judgment is crucial to determine the occurrence of plagiarism based on subject knowledge. You can seek consultation with your lecturers or tutors on your *Turnitin* originality report as needed.
